OBJECTIVES

Full Stack Developer with hands-on experience building, deploying, and maintaining production-ready websites and web applications. Skilled in AI-assisted development workflows, React, JavaScript, PHP, WordPress, responsive UI development, API integration, and Git/GitHub. Experienced in converting requirements into functional web solutions, reviewing and debugging code, customizing website experiences & handling end-to-end development from UI implementation to deployment and maintenance. Uses AI-assisted development tools such as Claude, Lovable and Bolt.new to accelerate prototyping and development while focusing on code quality, usability & practical functionality.

EXPERIENCE

Tech Craftery, Pune **December 2024 - Present**

Full Stack Developer

- Develop & maintain websites for institutional related projects using React, WordPress, PHP, JavaScript, HTML & CSS.
- Built and delivered 5–6 production-ready websites, supporting requirements from UI implementation through integration, deployment, and ongoing maintenance.
- Implement responsive, user-focused interfaces with attention to usability, consistency & cross-device compatibility.
- Handle backend integration and connect frontend experiences with relevant application functionality and services.
- Troubleshoot website issues, debug code, and maintain existing implementations as requirements evolve.
- Use Git/GitHub and AI-assisted development workflows to support implementation, iteration, and problem-solving.
- Conduct technical lectures and hands-on sessions to help students learn web development concepts and practical implementation.

PORTFOLIO & ONLINE PRESENCE

Personal Portfolio : https://ashutoshpalhare.github.io

A central showcase of my development work, technical skills, and projects, highlighting my approach to building modern, responsive web experiences.

GitHub Profile : https://github.com/ashutoshpalhare

Explore my software development repositories, web applications, learning platforms, and hands-on projects demonstrating practical coding and problem-solving skills.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (Computer Science),
Vishwabharati Academy's Engineering College, Ahemadnagar, Pune University (In Progress)

Diploma in Computer Engineering
Dnyaneshwar Polytechnic, Bhanashivare, Mumbai University 87.94%

Higher Secondary Certificate in Science,
Trimurty Junior College Mukindpur
Pune University 58.77%

Complete MERN Stack Bootcamp
Build a Blog Web App Project using NodeJs, Express, MongoDB & React.
Udemy | 2024

SKILLS

- **AI-Assisted Development:** Claude, Lovable, Bolt.new, AI-assisted coding, prototyping, code review, debugging
- **Frontend Development:** React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, responsive design
- **CMS & Web Development:** WordPress, PHP, CMS customization, website development and maintenance
- **Backend & Integration:** REST APIs, backend integration, Node.js, Laravel, CodeIgniter
- **Databases:** MySQL, SQL, MongoDB
- **Development & Delivery:** Git, GitHub, hosting, deployment, troubleshooting, performance optimization
- **Additional Exposure:** CI/CD workflows, cloud deployment, jQuery, Magento
